# University Life Arlington

## Purpose of University Life

University Life Arlington serves as a non-academic resource for all students on campus. We support *every student* at Mason's Arlington Campus, from orientation through graduation. We coordinate with a variety of offices throughout Mason to ensure that Arlington students receive the support they need. University Life Arlington creates engaging programs focused on success and well-being in life and career. We aim to connect our programs with topics relevant to the interests of Arlington Campus graduate and professional students. We serve as a resource for student organizations and a hub for campus leadership activity.
